

# End User Monitoring

## DO YOU HAVE AN ACCEPTABLE USAGE POLICY?

It's important that employees understand your expectations of what is considered acceptable use of company machines. Let Laketec help you develop yours.

## REPORTING

Would you like to know the top ten websites your company visits, who sends the most email, uses the most bandwidth, who uses online chatting the most?

## ALERTING

Would you like to know if your company's customer or financial files are transferred or emailed outside of the company? Protect your critical information with End User Monitoring.

For more information on any of our products or services please contact us at 440.575.6000 or [service@laketec.com](mailto:service@laketec.com)

- Non work related internet surfing results in up to a 40% loss in productivity each year at American Businesses.
- Average employees spend over 45 minutes per day doing personal web surfing.
- 58% of industrial espionage is perpetrated by current or former employees.
- 21% - 31% of employees surveyed admitted to sending confidential information outside the company.

## Report Benefits

Spector 360 is Laketec's flagship solution for monitoring your employees company-wide -- whether they are in the office, traveling or working remotely -- even when they are not connected to the company network. Report include, websites visited, web chat, E-mail and much more.

Spector 360 is the most advanced employee monitoring and filtering tool available on the market today. It is designed to provide businesses with a high-level view of all their employees' PC and Internet activity and allow full control of what web sites your employees can access. Spector 360 will significantly prevent, reduce or eliminate the problems associated with abuse.

When you absolutely need to know how your employees are using company resources, Spector 360 is the application of choice.

The most significant benefit is the cost savings to your company. Your Return On Investment (ROI) will be realized almost immediately as a result of increased productivity coupled with the low cost of ownership.
